Internet and Wi-Fi

Campers may have Wi-Fi enabled devices in their cabin for texting and email (no phone calls). These are only for use in their cabin at specific times of the day; not during any activity period or when the camper is otherwise outside of the cabin. Our rule that applies to campers and staff is that there should be no electronic devices outside of the cabin.

Responsibility

The camp has procedures designed to minimize the opportunity for belongings to go missing, such problems are rare, and we do our best to trace and return all lost property. However, our ability to track down items, especially small, expensive electronics such as iPods and digital cameras is limited, and the Camp will not be responsible for any mislaid or otherwise missing items. BUT you can help. Please label everything even if with a permanent marker.

Medication.

All medication must be prescribed by a physician, have a properly printed label in the camper's name and be listed on the camp medical form. Please ensure that you include enough medication with an un-expired date stamp to last for the duration of camp.

Laundry

Laundry is sent out each week and done over the weekend. For this reason, the clothing list is based on a 10-day cycle.

Sleeping

Sheets and blankets are required for sleeping in the cabins. For hygiene reasons, sleeping bags may not be used in the cabin. Similarly, for sleeping, campers must use pajamas or other designated nightwear rather than their day clothes.

Letters Home

Pre-addressed and stamped envelopes for letters may help ensure your camper writes to the people you want him to!
